

See abc's™ Alphabet Flash Cards

Here's a few scenes from this video. It's a bit blurry, but it is my favorite! You watch as a 4-yr old learns how to teach two 2-yr olds.

1. Lower Case cards. The 6 cards in front of the 2-yr old girl are plain letters. The 6 in front of the 2-yr old boy have the picture clue side up.

2. The 4-yr old asks the older 2-yr old to find the letter m, monkey. She picks up the 'm' card and turns it over to see the monkey.

3. The 4-yr old then asks the younger 2-yr old to find letter b, bat and ball.

4. The younger 2-yr old finds it, and excitedly shows it to his mother.
